

## Christmas Tree Display Box

**Scholar Age-Group:** Any

**Subjects:** Languages / General

**Model-Source:** NOA Magazine No. 472, Issue 12/2014, Christmas tree by Masako Futawatari

**Method:** Older children may be taught to fold the model. Younger children may just use the box for display purposes. The edges of the tree may be folded in (left and centre photo), the tree may be folded with paper that is green on both sides (centre photo) or the edges may be left protruding on the sides of the tree (right photo).

**How to use:** The model may be used to display other folded models. Younger children may want to display their favourite letter of the alphabet. At Christmas time, many such trees may be used for people to make their wishes for a whole forest of goodwill.
